

Is Your Business Asking Questions Your CRM Can't Answer? You Are Not Alone...

We Need to Do More with What We Have. While economic shifts have impacted internal costs and profitability – Customers are often willing to trade **loyalty** for **experience** and **availability**.

Customers accelerating needs for **experiences, insights** and **outcomes** from companies who already are resource crunched – have created **overwhelmed employees**. And one size fits all CRM is not helping.

We have all heard it – Low Code Platforms like **Power Platform** can help your users with a better more **connected, contextual** experience and your IT team to go faster, plus extend the life of your line of business solutions. We need to bring the **Business** and **IT together** to figure out how to **innovate** while **maximizing** our **tech investments** – now!

What Clients are Saying about the 30 Day Get CRM Right Challenge

We changed our focus when we changed partners. We changed our focus from our project to our users and business outcomes and we went from processing 20 applications a week to 30 a day.

Rob
COO, SRB Capital LLC

“We were literally going to junk our system and start over, Then we realized – it wasn’t the software – it was the way it was implemented” “Big Project then gone” We are getting 10X the value we used to get from other System Integrators”

Mark
CEO, RealNex

What We Are Hearing

We are struggling with CRM system credibility..

We are only using a fraction of the features we paid for

We want to learn how to get more from our Power Platform Investments

We are Struggling with Adoption

Our internal resources are stretched thin

We need to best leverage the new changing features in CRM

The Business keeps asking for more fields on our 365 forms for its front-line workers

Why is everything a change order for our partner?

Our CRM Partner only is focused on **BIG** projects
